Summary

Creative and detail-oriented Frontend Web Developer with a proven track record of building beautiful, responsive, and user-friendly web interfaces. Proficient in Vue.js, Nuxt.js, Next.js, Tailwind CSS, and modern UI frameworks, I specialize in delivering pixel-perfect designs that enhance user experience and drive engagement. I excel at translating complex concepts into practical digital solutions while thriving in collaborative environments and consistently meeting tight deadlines.

Projects

E-commerce Store

Developed an online e-commerce platform for small and medium-sized businesses that facilitates the buying and selling of products.

Mojoda FC Team Website

A comprehensive football club website showcasing team rosters, match schedules, league tables, and club information. Built with modern web technologies to provide fans and stakeholders with up-to-date team information and engaging user experience.

Bernode Filmhouse Movie Website

A dynamic movie discovery platform featuring current releases, upcoming films, and trailers. Developed collaboratively using Next.js, Tailwind CSS, and ShadCN UI to deliver a responsive and visually appealing interface for movie enthusiasts.

Personal Portfolio Website

A professional portfolio showcasing frontend development skills and projects. Features responsive design, interactive elements, and optimized user experience to demonstrate technical expertise in modern web technologies and design principles.

Professional Experience

Front-End Developer, *BernodeHub*

11/2024 – Present

- Developed a comprehensive website for Mojoda FC football team that showcases team rosters, match schedules, league tables, and club information.
- Collaborated with a team of frontend developers to build a dynamic movie platform featuring current releases, upcoming films, and trailers using Next.js, Tailwind CSS, and ShadCN UI.
- Built a comprehensive school portal with three distinct user dashboards for a nursing institution using Vue.js and Tailwind CSS.

Front-End Developer Volunteer, *New Horizon*

02/2024 – 04/2024

- Contributed to the development of a user-friendly web interface for a blog website using React.js.
- Collaborated with the UI/UX team to optimize the frontend of a client's e-commerce platform, improving overall design and user experience.
